Parent Support

Only allow use of devices in common family areas of the home.

Monitor child's use of the device at home and outside the school setting.

Use of a device before or instead of bedtime impacts sleep quality and can cause sleep deprivation.

Lack of sleep can cause moodiness, irritability and misbehavior the next day.

Collect and secure devices at a certain time to prevent use at bed-time.

Remove student dependency of device. Promote other activities.

An illustration showing a top-down view of a blue surface with several hands interacting with various electronic devices. The devices include tablets, laptops, and smartphones. Each device displays a different colored cloud shape: blue, green, red, purple, brown, and teal. The hands are shown in various skin tones, suggesting a diverse group of users. The text 'Questions? Need help' is centered on the blue background.
